## Assembly Instructions

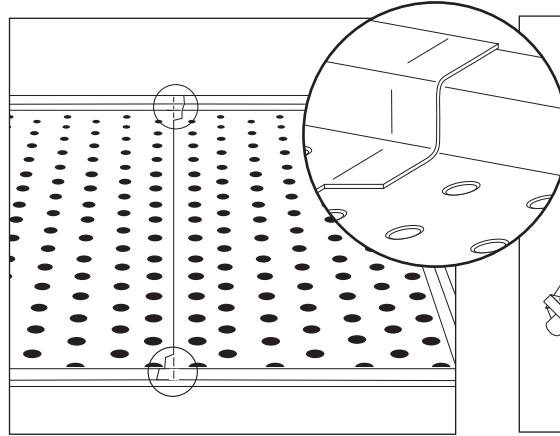

**KING**<sup>®</sup>  
L I V I N G

Two people are required for safe assembly.

Lay out the components as shown.  
Follow the Steps until assembly completed.

**1** Connect tub halves.

**2** Connect & secure tub halves.

**3** Connect leg to side.

**4** Connect leg to side.

**5** Lower side onto tub.

**6** Line up legs to the tub indents.

**7** Repeat for both sides.

**8** Lower bed end onto tub.

**9** Connect bed end to sides using the leg pins.

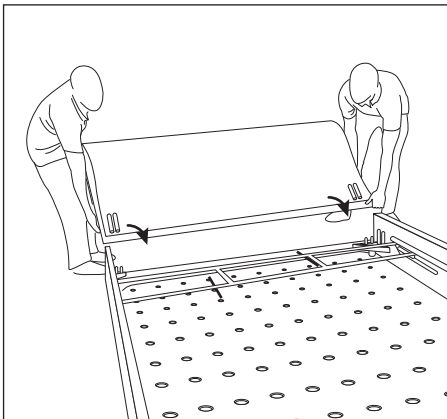

**10** Attach one end of spreader rail.

**11** Attach other end of spreader rail and push together.

**12** When sides joined to the head & end, cover the exposed corner leg pins with triangle pieces - as shown.

**13** Lower Bed Head onto tub and leg pins. You are ready to start covering the base

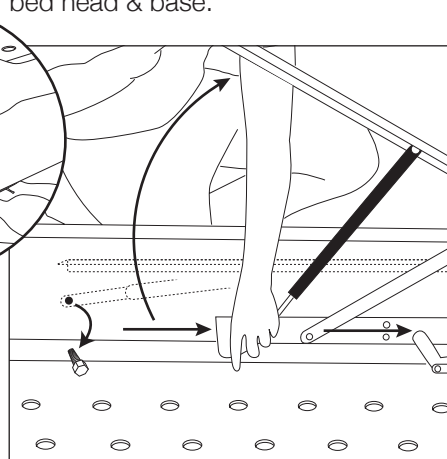

**14** The cover has a plastic tab at each end. Insert first plastic tab between bed head & base.

**15** Fasten cover all around bed base. Secure top & bottom edges of cover to the Vetrico strips inside the bed base.

**16** Continue fastening cover all around bed base. To finish, Insert the second plastic tab between bed head & base.

**17** Unscrew the bolt to release the transport securing mechanism. Take care not to scratch the timber.

**18** Screw-in the bolt to secure lever arm in the correct position.

**19** Connect frame together with four (4) bolts.

**20** Screw in securely with the Allen Key.

**21** Ensure all four (4) bolts are secured.

**22** With bed in bed-making position, lower frame onto bed rail. Line-up knobs with receivers.

**23** Push-in until all four (4) connectors 'click' securely.

**24** Bed frame is now secured to bed rail.

**25** Line-up mattress supports with receiving holes and push the supports into bed frame.

**26** With bed still open, tighten all screws & bolts to ensure bed frame, bed rail and bed base are all securely attached.

**27** Place mattress on top of bed frame carefully.

**25** Close the assembled bed.
